Campground Rules & Regulations

Clark County strives to make your visit with us a pleasurable experience. In an effort to accomplish this, we want to be as transparent as possible with our rules and regulations. The below are some of our most frequently questioned policies, rules, and regulations. This is not an all-encompassing list. As a camper, you agree to abide by all policies, rules, the Clark County Ordinances, and any administrative ruling deemed by Clark County Forestry & Parks Committee and its authorized agents.

Camping Season and Conditions:

Reservations can be made in eligible campgrounds and campsites from May 1st through September 30th, the reservation season. Check in time is 3:00pm. Early check in is not promised and is based on check out time of previous occupant. Check out time is 1:00pm. Late checkouts may be charged an additional nights camping fee.

Reservations will not be accepted for October through April due to an inability to guarantee all amenities will be available. Availability of camping amenities in October is primarily dependent on weather and environmental factors. A first come, first serve policy is implemented for camping outside of the reservation season. Please call the Business Office at (715) 743-5140 to check on campground amenities for October camping. Please note, the reservation season and amenities are dependent on weather. Clark County reserves the right to change these beginning and end dates, without prior notice.

*Snyder Campground, Russell Memorial Campground and Rock Dam Campground are the only County campgrounds which contain a heated shower building and they remain open to campers through the completion of the gun deer season. October and November are still non-reservable months at these campgrounds and sites are still available on a first come, first serve basis.

Fees:

All fees are determined by the Forestry and Parks Committee, per night, per camping unit, per amenities present at the selected site regardless of use. If multiple units are eligible to be placed on your site, additional units will be required to pay all fees applicable to the site stayed on. All fees must be paid prior to setup and permits displayed on provided site post. There is a \$7.00 reservation fee applied to each reservation that is made. The reservation fee applies to every reservation, even when multiple reservations are made at the same time or for the same period.

Campsites:

Campers are not allowed to "sprawl" onto adjacent campsites or public spaces. All items, including vehicle and trailers, must fit on camper's campsite. Campsites must be clean at all times. Boat docking/mooring is not promised with any campsite reservation. All waterfront shoreline is available on a first come first serve basis and also serves as public access to the water. To allow as much use as possible, we ask that when a boat is not in use that you please trailer it.

Provided Information:

All measurements and amenities, including, but not limited to, electric service amperage, "Site Dimensions", "Pad Dimensions", "Site Size" & "Unit Max", are provided to the best of the department's current knowledge with no guarantee of accuracy. It is the camper's responsibility to ensure that the site they are selecting for a reservation will work adequately for their desired experience. No guarantees are provided that your camping unit and additional items will fit within the site boundaries based on these measurements. Site dimension measurements are typically taken at the narrowest point of the campsite area. The true open square footage of a campsite may vary from the size that is listed. "Unit Max" measurements are provided as a best guess to the size of unit that will comfortably fit within the site. A camping unit larger than listed may be placed on the campsite as long as it fits within the campsite boundaries.

Firewood:

Any firewood transported into a Clark County campground must originate from within Clark County. Firewood supply must be maintained in a neat pile. Firewood cannot be delivered into the campground by an outside vendor. Do not burn garbage. Campers may collect dead and down firewood within a campground. Cutting of live trees is strictly prohibited.

Fireworks:

No person shall possess, fire, discharge, explode or set off any squib, cracker or other explosive or pyrotechnic device containing powder or other combustible or explosive material within the boundaries of any county park, recreation area, campground or special use area except by permission of the committee or its authorized agent.

Pets:

Pets are allowed in all county parks and campgrounds as long as they are at all times kept on a leash not more than eight feet long. Unless an individual requires a trained service animal due to a disability, animals are restricted from the following areas: beaches, playgrounds, and all public buildings. Pets shall be effectively restrained or under the owner's control at all times. No person shall

allow a pet to deprive or disrupt the enjoyment or use of any area by others. Pet owners are required to pick up and properly discard of all pet waste.

Quiet Time & Visitors:

Quiet time is from 10 p.m. to 6 a.m. daily. Campers are prohibited from setting up or tearing down their campsite during quiet hours. Guests are welcome in the campground between the hours of 6 a.m. to 11 p.m.; however the camper is responsible for their guests (and their guests' actions) while in the campground. Guests are not allowed to park on vacant or unregistered campsites. If your campsite is not large enough to accommodate another vehicle, camper is responsible to direct their guests to park in public parking areas.

Cancellations/Refunds:

Cancellations can be completed by phone or in person through the Business Office during business hours. Select reservations can also be cancelled online via department reservation website. Cancellations made ten (10) calendar days or more prior to reservation start date will receive a credit on their household account for the amount of the reservation that is paid minus all non-refundable reservation or cancellation fees. All credits on accounts expire one calendar year from date of creation. Credits on accounts can be used for purchases through the reservation system and are not eligible for redemption through self-registration envelopes. Credits on accounts below \$850.00 in value can be surrendered for a check refund of 50% credit value. Credits on accounts \$850.00 or more in value can be surrendered for a check refund of 75% credit value.

Cancellations made less than ten (10) calendar days before reservation start date are not eligible for a credit on their account. Individuals may only reschedule their reservation to a new date in the future.

Refunds for early departures and cancellations made during a reservation, including the morning of the reservation start date, are subject to administrative review and an "Administrative Refund Application" must be submitted to the Clark County Forestry and Parks Business Office with this request. The "Administrative Refund Application" must be submitted within two (2) business days of reservation termination.

Reservation Policy:

Reservations are taken up to a maximum of 400 days in advance of check-in date, must be made at least three (3) days in advance of check-in date, and reserve for a minimum of two (2) nights. Within three (3) days all unreserved campsites are first come first serve. Please be sure to check that the site you select will work for your camping unit and also the dates that you are reserving for are correct. If a site has been reserved via the reservation system, it will remain held for the reserved party whether or not the party shows up and uses the site. Reserved sites will not be sold again unless approved by park management.

Reservations lasting longer than seven (7) days may be eligible for an "Extended Stay Camping Discount". All reservations lasting longer than seven (7) days are subject to the "[Extended Stay Camping Policy](#)" which is found online at

State Codes & Utilities:

State code requires a minimum separation of ten (10) feet between camping units. This restriction prevents us from promising multiple units will fit on most single sites. If multiple units fit on your site, additional units will be required to pay all fees which apply. All water spigots will be fitted with a backflow prevention device at the beginning of the season and must remain on the water spigot. Using a splitter or removing the backflow prevention device is a direct violation of state code. Sewer caps must be on at all times. Draining of grey or black water onto the ground is strictly prohibited by State Code and will not be tolerated at any time.

Clark County Forestry and Parks does not offer honey wagon service. Needed services may be arranged with outside vendors, who are required to remove said waste from the park. Discharging said waste into dump stations is not permitted. Do not place or burn garbage in fireplaces. Dumpsters are only for registered campers use and for waste generated while camping. Bag all trash securely, place in dumpsters and close the dumpster after use. Prohibited items include flammables or toxic materials, furniture, appliances, tires, auto batteries, mattresses and carpets. CLARK COUNTY ENCOURAGES RECYCLING; CONTAINERS ARE LOCATED BY THE DUMPSTERS. No rummaging or scavenging is allowed in dumpsters or recycling bins. If campsite will not be used for more than 24 hours, camper is expected to turn off the air conditioning unit in the camper.

Inquiries:

If you have specific questions, please contact the Clark County Forestry and Parks Department Business Office at (715) 743-5140 Monday-Friday from 8:00AM to 4:30PM.
